Aluminium slat utility box covers

Aluminium slat screens for carports and patio enclosures

Aluminium Slatted privacy screens, fencing and gates are a popular way for Australian homeowners to screen & fence their outdoor areas.

There are many DIY Aluminium Slat suppliers in the Australian market however, SP Screens offer a full custom built, installation service without the hassle of DIY.

SP Screens customers receive a quality installation at the best price without having to dedicate their weekends to fiddly and time consuming DIY projects.

Application of Aluminium Slats

Aluminium slat screens, fencing and gates are applicable to a huge variety of situations, to improve the view within your property, and restrict it from outside. These include:

- **Aluminium slat brick pier infills** – Ideal for pier infills adding modern style and privacy.
- **Aluminium slat fencing and gates** – To keep your home safe and secure.
- **Aluminium slat privacy screens for deck and/or balcony areas** – So you can relax and enjoy complete privacy when you're outside.
- **Aluminium slat utility box covers** – Including pool filter boxes and enclosures for bins, air conditioning units and/or gas bottles.
- **Aluminium slat screens for carports and patio enclosures** – Providing extra screening and privacy.
- **Aluminium slat for window privacy screens** – Giving you privacy from neighbouring houses and the sun.

Colour Range

SP Screens stock a range of standard colour aluminium slats however, our slats can be powder-coated to (almost) any colour you require, including the latest Colorbond colours.

Benefits of SP Screens Aluminium Slat Fencing, Privacy Screens & Gates

Aluminium slatted products are a stylish, modern way to provide security and privacy to your property. Some of the benefits of choosing SP Screens aluminium slat products are:

- Customisable to create almost any size of fence, privacy screen or gate.
- Flexible screening solution allowing for a choice of slat spacing.
- Gold accredited Interpon powder coated aluminium that delivers a smooth, strong, long lasting finish.
- Screws are neatly hidden behind a sleek cover plate.
- Aluminium slats are extremely hardy and durable and do not warp, crack, burn, rot or splinter. Aluminium is highly resistant to corrosion and is termite-proof.
- Low maintenance cleaning and no need for repainting
- Improved street appeal for homes.
- Engineered with superior strength components to stand the test of time.

Why Choose SP Screens?

Frequently Asked Questions (FAQs) Aluminium Slat Products

How Wide is Each Aluminium Slat?

65mm wide and 16mm thick

How Wide Can a Screen Span Before a Post or Midrail is Required?

Up to 2000mm until a midrail is required and up to 2400mm until a full post is required

What Size Are The Posts?

44mm and our gate posts and frames are 50mm

What Latch and Locks are available?

We have a number of solid key and locking options with our premium option being latch locks with double sided keyed deadlocks of the highest quality

Do SP Screens Do Brickwork?

No, a qualified bricklayer will be able to build any brick piers required. After the brickwork is completed, the aluminium slats can be installed.

What if My Fence Line is Not Level?

We would step your fence panels with the fall of the land, we are unable to provide racked panels.

Where Can I Build An Aluminium Slat Fence On My Property?

Fences can be built around your block boundary and specific requirements will vary between councils. Before you begin building your fence around your property, ensure that you openly discuss property boundary lines with your neighbours. Use your plot plan to clearly identify your

boundary and make sure that your neighbours agree with your assessment!

Do I Have To Obtain a Building Permit?

Some fencing installations will require you to obtain a building permit from your local council for the job. It is a good idea to call your local council or planning committee before you undertake any building project on your land to make sure you are prepared. Some councils will specify how high your fence can go and where a fence is allowed to start on your property.

Can Aluminium Slatted Screens Be Used For Pool Gates and Fencing?

Yes, however it is important you check with your local council to be aware of pool safety regulations in your area.

Can SP Screens Remove and Dispose Of My Old Fence Before Installing The New Fence?

Yes, we can! We will quote you separately on the removal and disposal of your old fence and you can decide if you'd like us to do this for you as well.

How Deep Do SP Screens Cement Fence Posts?

We cement 0.6m when digging into soil and rock and to 0.9m when it's a coastal area with a sandy yard. The depth required to secure your fence posts will be determined by our professional installers.
